**DETAILED ACTION**

***Allowable Subject Matter***

Claims 19-20 and 23-52 allowed over prior art.

The following is an examiner's statement of reasons for allowance:

None of the prior art teaches or suggests a device for detecting a parameter representative of a state associated with a glazing of a motor vehicle including at least one insert partially <sup>implanted</sup> ~~implemented~~ between a thickness of the glazing, and an emitting means configured to emit a first beam to be at least partially returned by a front face of the glazing as well as a second beam to be at least partially returned by a rear face of the glazing, with a view to detecting foreign substances on the front and/or rear faces of the glazing as claimed in independent claim 19.

None of the prior art teaches or suggests a device for detecting a parameter representative of a state associated with a glazing of a motor vehicle including at least one insert at least partly implanted into a thickness of the glazing, wherein a first electromagnetic beam undergoes a first plurality of reflections in the glazing between a first surface of the least one insert and the first face of the glazing, and wherein a second electromagnetic beam undergoes a second plurality of reflections in the glazing between a second surface of the at least one insert and the second face of the glazing as claimed in independent claims 23 and 38.

Claims 20, 24-37 and 39-52 are allowed by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

2/10/04

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
